You may find it convenient to write your essay responses in a program such as Microsoft Word and then paste them into the application form.

Please do not use the "Back" and "Forward" buttons of your browser while you work on this form. Use only the "Previous" and "Next" buttons at the bottom of every page.

All the best!

2. About the Grants

Researchers from resource-poor settings often have difficulty publishing and otherwise communicating their work, in part because they commonly lack suitable writing skills. To help address this challenge, the AuthorAID project of the International Network for the Availability of Scientific Publications (INASP) provides support to researchers through mentoring, networking, freely available resources, and research-writing workshops.

To provide further training, AuthorAID is providing grants for researchers to attend a summer research writing course at Texas A&M University, College Station, Texas, USA, starting 25 June 2012. This course will span 3 to 4 weeks.

Two researchers from developing countries will receive grants to attend this course.

The grants will enable the recipients to attend the research writing course and later travel to present their work at a conference. Each recipient will receive a certificate after completing the course.

The grant has two components:

- (1) A full waiver of the tuition fee (worth about US \$2,000), free housing on the Texas A&M campus (worth about US \$1,000), and access to Texas A&M University library resources
- (2) A cash grant of US \$2,500 to each grant recipient to cover the costs of travel, food, and health insurance related to attending the course and presenting at a conference.
